VSA Practice Field Rules

Parents and spectators must stand outside of the fenced area. This is for the following reasons:

- Respect that this is the children's game and this is their area without parental intrusion
- Follow the guidelines of VYSA's KidSafe protocol
- Protect our children from any potential danger of unknown individuals entering field of play
- Create the best possible fun learning environment for all of our players

Only scheduled teams and players are allowed on the fields during VSA training. This is for the following reasons:

- Create a professional environment for development
- Limit distractions for our players
- Follow the guidelines of VYSA's KidSafe protocol
- Protect our children from any potential danger of unknown individuals entering field of play

Teams and players must wait until practices of other teams are complete before entering the field. This is for the following reasons:

- Create a professional environment for development
- Reduce the risk of theft or misplacement of valuables and bags/balls
- Reduce distractions for players and coaches so they can concentrate on practice
